TIGERSTONE MALBEC 2019

VINTAGE NOTES

WINERY INFORMATION: Estancia Los Cardones winery is located in Tolombón, a province of Salta, the northernmost wine area in the country; south of the city of Cafayate at 1,700 meters above sea level above the eastern slope of the Calchaquí Valleys. Inaugurated in early 2017, the winery was built entirely of stone, minerals that were extracted from the nearby quarries. The climate is dry throughout the year, except for some occasional rains during the summer season. The orientation of the vineyards, the intense sun and the stony soil favor the earliest maturity of the grapes, being the first farm to harvest in the entire Calchaquí Valley.

LABEL NOTES: For the Tigerstone wines, we select the highest lot in the vineyard where we find the highest amount of rocky surface soil. We call these angular rocks, Tigerstone. These rocky surface stones cause the lowest yield in the vineyard.

WINEMAKING: Different micro vinifications in 500kg harvest bins. Temperature of 22°C for an average of 12 days. Manual punch downs.

FERMENTATION: 100% malolactic fermentation. Gentle de-stemming. Cold maceration for 6 days. Natural yeasts

COLOR: Deep, blackish color

TASTING NOTES: Provides dark fruit with delicate herbal notes. The mouthfeel is full, yet fresh. Finishing with crisp acidity and well-structured tannins.
