

Atacama Desert, Chile

FROM THE SILENCE & SOLITUDE OF THE WORLD'S DRIEST DESERT

The Atacama desert is unique; its sky and landscape reveal the immensity of our uncharted territories, the absence of frontiers, the vastness of the universe and the smallness of humanity.

Tara, a line of extreme wines, is born from this mysterious and silent world. Located in a cold climate desert poses a challenge as complex as its geography, an invitation to delight in the taste of the unknown, an incomparable experience, a journey to the source.

Tara Chardonnay

The mouth is tense and well-structured. The chalkiness and salinity of the soil come through in the palate. The nose reveals fruit, such as sweet cucumbers and apricots, as well as floral notes. As you sip the wine, it evolves in the glass. This is not a classic style of Chardonnay and we attribute this to its very particular and unique terroir.

95 points, *Wine Advocate* ('21)

Tara Pinot Noir

Deep ruby red color, complex aromas of black cherries and wild berries, complemented with white stones and floral delicate tones. On the palate, the wine shows structured and linear, with persistent and elegant acidity.

93+ points, *Wine Advocate* ('21)

Tara Viognier

An aromatically complex wine with different layers, revealing notes of candied orange peel, orange blossom, lime, sponge cake and dried fruit. The palate is broad and well-structured. It is very fresh.

93+ points, *Wine Advocate* (V8)
