

LAMADRID

ESTATE WINES

Angelina Yañez Chief Winemaker, Lamadrid Estate Wines

During and after completing her degree at the Liceo Agrícola y Enológico Domingo Faustino Sarmiento, Angelina (Angie) put her winemaking studies and analytical skills to practice at wineries such as Bodega Catena Zapata and Bodega Renacer, ultimately joining Lamadrid Estate Wines in 2008 as a laboratory analyst.

Angie steadily rose in position and responsibility and became part of the family, producing wines for Lamadrid and for multiple third parties at the winery since 2009, including fully organic projects. She has had experience in harvests abroad in Ribera Sacra, yet knows our Agrelo vineyards, their blocks and all the vessels in the winery like the back of her hand.

Angie has continued to expand her winemaking knowledge through additional specialized postgrad studies, collaborations, and spearheading new projects and ideas at the winery. She has the entire enological team's respect and confidence, which has led her to be recognized and promoted to chief winemaker at Lamadrid.
